REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF NATIONAL PETROLEUM SERVICES COMPANY K.S.C.P.

### Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Petroleum Services Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group") as at 30 September 2019, the related interim condensed consolidated statement of profit or loss and the interim condensed consolidated statement of comprehensive income for the three-month and nine-month periods then ended, and the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the nine-month period then ended. The management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

### Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulation, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended 30 September 2019 that might have had a material effect on the business of the Parent Company or on its financial position.

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

As at and for the period ended 30 September 2019

### 1 CORPORATE INFORMATION

The Group comprises of National Petroleum Services Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group"). The Parent Company was established as a Kuwaiti shareholding company on 3 January 1993 and its shares are publicly traded on Boursa Kuwait. The Parent Company is a subsidiary of Qurain Petrochemical Industries Company K.S.C.P. (the "Ultimate Parent Company").

The registered office of the Parent Company is at Industrial Shuaiba - Plot 3 - P.O. Box 9801 Al-Ahmadi, Postal Code 61008, State of Kuwait.

The Parent Company is engaged in the provision of upstream and downstream oil field services. The principal activities of the Group are described in Note 12.

The interim condensed consolidated financial information for the nine months ended 30 September 2019 was authorized for issue in accordance with a resolution of the Board of Directors of the Parent Company on 6 November 2019.

### 2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

### 2.1 Basis of preparation

The interim condensed consolidated financial information for the nine months ended 30 September 2019 has been prepared in accordance with IAS 34 "Interim Financial Reporting".

The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2018.

### 2.2 New standards and interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of new standards effective as of 1 January 2019. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Group applies, for the first time, IFRS 16 Leases that requires restatement of previous financial statements. As required by IAS 34, the nature and effect of these changes are disclosed below.

Several other amendments and interpretations apply for the first time in 2019, but do not have an impact on the interim condensed consolidated financial information of the Group.

### 2.3 Impact of changes in accounting policies due to adoption of new standards

### IFRS 16 Leases

IFRS 16 supersedes 1AS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model.

Lessor accounting under IFRS 16 is substantially unchanged under IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION (UNAUDITED)

As at and for the period ended 30 September 2019

### 2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

### 2.3 Impact of changes in accounting policies due to adoption of new standards (continued)

### IFRS 16 Leases (continued)

The effect of adoption IFRS 16 as at 1 January 2019 on the interim condensed consolidated statement of financial position is as follows:

A COTTO	KD
ASSETS Prepayments and other receivables	615,407
11-paymonic and calor 10001, acres	
LIABILITIES	
Account payable and accruals	615,407

The Group has discounted its future lease obligations using its incremental borrowing rate which is determined at 6% at the reporting date.

### a) Nature of the effect of adoption of IFRS 16

The Group has lease contracts for buildings, vehicles and other equipment. Before the adoption of IFRS 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability.

In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in comprehensive income on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under Prepayments and other receivables and Accounts payable and accruals, respectively. Upon adoption of IFRS 16, the Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The standard provides specific transition requirements and practical expedients, which has been applied by the Group.

### Leases previously classified as finance leases

The Group did not change the initial carrying amounts of recognised assets and liabilities at the date of initial application for leases previously classified as finance leases (i.e., the right-of-use assets and lease liabilities equal the lease assets and liabilities recognised under IAS 17). The requirements of IFRS 16 was applied to these leases from 1 January 2019.

### Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets for most leases were recognised based on the carrying amount as if the standard had always been applied, apart from the use of incremental borrowing rate at the date of initial application. In some leases, the right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. The Group discloses right-of-use assets in 'prepayment and other receivables' and lease liabilities in 'accounts payable and accruals' in the interim condensed consolidated financial information.

### 2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

### 2.3 Impact of changes in accounting policies due to adoption of new standards (continued)

IFRS 16 Leases (continued)

### b) Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

### Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

### 9 EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the period attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

### 12 SEGMENT INFORMATION

For management purposes, the Group is organized into business units based on the products and services and has two reportable operating segments i.e. oil field services and non-oil field services. Management treats the operations of these segments separately for the purposes of decision making, resource allocation and performance assessment. The segment performance is evaluated based on gross profit or loss.

### Oil field services

Oil field services comprise of cementing and stimulation formulations for different applications and operating environments for oil rigs. It mainly includes well cementing services, and well intervention services.

### Non-oil field services

Non-oil field services comprise of a number of diversified activities with health, safety and environmental services, engineering and consultancy services.

### 13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Management assessed that the fair value of financial assets and financial liabilities approximate their carrying amounts as most of these instruments are of short-term maturities or are repriced immediately based on market movements in interest rates.

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

The following table shows an analysis of financial instruments measured at fair value by level of the fair value hierarchy:

	Quoted prices in active markets (Level 1) KD	Significant unobservable inputs (Level 3) KD	Total KD
At 30 September 2019			
Financial assets at fair value through profit or loss	26,243	1,371,854	1,398,097
At 31 December 2018 (Audited) Financial assets at fair value through profit or loss	30,114	2,195,921	2,226,035
At 30 September 2018 Financial assets at fair value through profit or loss	31,321	2,189,623	2,220,944

There were no transfers between Level 1 and Level 2 fair value measurements during the period/year, and no transfers into or out of Level 3 fair value measurements during the period/year.

The impact on profit or loss would be immaterial if the relevant risk variables used to fair value the unquoted securities were altered by 5%.

The movement in Level 3 fair value hierarchy during the period is given below:

30 September 2019	At 1 January 2019 KD	Net (sales), (redemption) and purchases KD	Loss recorded in profit or loss KD	At 30 September 2019 KD
Assets measured at fair value Financial assets at fair value through profit or loss	2,195,921	(816,395)	(7,672)	1,371,854
31 December 2018 (Audited)	At 1 January 2018 KD	Net (sales) and purchases KD	Loss recorded in profit or loss KD	At 31 December 2018 KD
Assets measured at fair value Financial assets at fair value through profit or loss	2,212,880	(16,204)	(755)	2,195,921
